

NATIONAL WEATHER SERVICE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

2022 NWS Gray Winter Spotter Training (Virtual)

Help your National Weather Service by becoming a Winter Weather Storm Spotter! Storm spotters report snowfall, ice accumulation, ice jam flooding and coastal flood erosion during Northern New England's long harsh winters. Spotter training will teach you how to accurately measure and report significant winter weather phenomena!

Where: Your Home

Registration: <https://attendee.gotowebinar.com/register/4724637075053429773>

When: Tuesday, Nov 15th, at 6:00 pm

Cost: Free to all those interested in Weather!!!

For other training in upcoming months, check out the National Weather Service online at <https://www.weather.gov/gyx/skywarn>. You can contact Donald Dumont Donald.Dumont@noaa.gov for additional information on this training.
